GENERAL EXCHANGE SERVICES

C. CONDITIONS

1. Route and type of facilities
  - a. The Company shall determine the route and type of construction which will be used in the extension of its facilities within an exchange. All such line extensions shall be owned and maintained by the Company.
  - b. The Company will be responsible for the route of the proposed line extension facilities upon which costs will be developed. Such routes will include the last pole or cable distribution box on public or private property but will exclude the drop wire (maximum of 300') for the building in which the telephone service is to be located.
  - c. Any difference in costs between the type of construction proposed by the Company for use on a line extension and the type of construction requested by the customer will be charged at actual cost for the difference. (See Part II, Special Type of Construction.)
  - d. When two (2) or more applicants mutually agree they may be considered as a "group." Line extension charges will be established in order to determine the amount of construction which needs to be provided. Line extension charges computed for the total extension, less allowable costs, may be proportionately divided among the applicant making up the "group."
2. Obligation of the Company
  - a. The Company's obligation to provide service through line extensions is solely dependent upon its ability to secure, retain, and maintain suitable rights-of-way without unreasonable expense.
  - b. The Company will survey all prospective customers who could receive service from each proposed line extension project prior to its construction.
3. Payment of charges applicable to line extensions shall be paid in advance.
4. Applicants requesting service which can be provided from a previously established line extension project:
  - a. Within 12 months from the time service was initially provided by means of such line extensions, initial charges will be recomputed by the Company and the applicant will pay a proportionate share of such charges as if they were one of the initial applicants and appropriate refunds will be made to the original customer(s).
  - b. After 12 months from the time service was initially provided, such applicant(s) will be responsible for the charges and conditions applicable to the establishment of line extension facilities required to serve them alone.
5. Except as provided elsewhere in this tariff, refunds of line extension charges will not be paid by the Company.

C. CONDITIONS (Continued)

6. Supersedure of service provided from a line extension and any adjustment in an amount paid by a customer discontinuing such service will be a matter of negotiation between the disconnecting customer, who has obligated himself for the line extension charge and the superseding applicant.
7. The Company will have the option to specify the type of construction to be used when line extensions are requested for service into real estate subdivisions or mobile home parks. Any difference in costs of types of plant facilities used by the Company or requested by the subdivider will be negotiated between the parties.
8. When the line extension proposed contains growth potential to provide for anticipated future service demands, the proposed customer(s) will only be obligated for that portion of such line extension costs as would be necessary to serve the new customer alone. It will be to that segregated amount that the Formula for average Outside Plant costs will be applied.
9. Line extensions of a temporary or speculative nature
  - a. Line extension of the Company's facilities may be made to provide service of a temporary or speculative nature. An applicant whose service is considered speculative or temporary in nature will be charged the total actual costs of construction and estimated costs of removal, less salvage value, for the material used to establish the service.
    - 1) If after a 12-month period the temporary or speculative project is considered by the Company to be a permanent service, a refund may be made to the customer for the difference between costs paid and the charges which would have been computed for a regular line extension.

C. DEFINITIONS

1. Individual Services

- a. Call Forwarding-Basic: Permits a customer to transfer all incoming calls to another dialable telephone number. The customer pre-selects a second telephone number to which all incoming calls are automatically transferred. Calls may be transferred to a long distance message telecommunications point subject to the availability of the necessary facilities in the central office from which the calls are to be transferred.
- b. Call Waiting: By means of a tone signal a customer who is using his telephone is alerted when another caller is trying to reach that station. This permits putting the first call on hold so that a second call can be answered.
- c. Speed Calling: Enables a customer to place calls to other telephone numbers by dialing a one- or two-digit code rather than a complete telephone number. Customer may subscribe to only one of either the 8 Code capacity or 30 Code capacity on the same line.
- d. Three Way Calling: Enables a customer to add a third party to an existing call without operator assistance, thereby establishing a three-way conversation. The transmission may vary depending on the distance and routing necessary; therefore, transmission may not meet normal standards.

D. CONDITIONS

1. Call Forwarding Services shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment in whole or in part, of message toll charges that would regularly be applicable between the station originating the call and the station to which the call is transferred. Customers utilizing call forwarding services are responsible for the payment of charges for each toll call to the telephone to which the call is transferred.
2. Control of the number assignment on the shared speed call list associated with Group Intercom resides with the provider. The provider must have an access line in the same central office as their client for the purpose of controlling the speed call list. The access line will be restricted from dialing any toll calls billable to the end user.
3. Custom Calling Services will be provided in connection with individual line residence and business service. Custom Calling Services are not available to PBX customers.

EMERGENCY REPORTING TELEPHONE SERVICE

ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911)

A. GENERAL

1. Enhanced Universal Emergency Number Service, also referred to as Enhanced 911 Service or E911, is a telephone exchange communication service whereby one or more Public Safety Answering Points (PSAP) designated by the customer may receive telephone calls dialed to the telephone number 911. E911 Service includes a line and equipment necessary for the answering, transferring and dispatching of public emergency telephone 911 calls originated by persons within the serving area. E911 Service provides for Selective Routing, Automatic Number Identification, and Automatic Location Identification features.
2. Enhanced 911 Service is offered subject to availability of facilities.
3. The E911 customer may be a municipality or other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated. The customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to telephone calls from the public for emergency police, fire or other emergency services within the telephone central office areas arranged for 911 calling.
4. The rates and charges contained herein are in addition to all other applicable rates and charges located in other parts of this tariff.

B. RATES

The rates and charges for E911 Service will be determined on an individual case basis. Individual features requested by the customer include, but are not limited to, central office modifications, data base preparation, trunking and maintenance.

EMERGENCY REPORTING TELEPHONE SERVICE

ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Continued)

C. CONDITIONS

1. E911 service is provided solely for the benefit of the customer operating the PSAP. The provision of E911 Service by the Telephone Company shall not be interpreted, construed, or regarded, either expressly or implied, as being for the benefit of or creating and Telephone Company obligation toward any third person or legal entity other than the customer.
2. The Telephone Company does not undertake to answer and forward E911 calls, but furnishes the use of its facilities to enable the customer's personnel to respond to such calls on the customers' premises.
3. Temporary or vacation suspension of service is not provided for any part of the E911 Service.
4. The E911 calling party forfeits the privacy afforded by non-listed and non-published service to the extent that the telephone number, address, and name associated with the originating station location are furnished to the PSAP. The names, addresses, and telephone numbers of telephone customers whose listings are not published in directories or listed in Directory Assistance Offices is confidential. Information will be provided on a call-by-call basis only for the purpose of responding to emergency calls.
5. The Telephone Company's entire liability to any person for interruption or failures of E911 Service shall be limited to the terms set forth in this section and other sections of this tariff.
6. The rates charged for E911 Service do not contemplate the inspection or constant monitoring of facilities to discover errors, defects, and malfunctions in the service, nor does the Company undertake such responsibility. The customer shall make such operational tests as, in the judgment of the customer, are required to determine whether the system is functioning properly for its use. The customer shall promptly notify the Telephone Company in the event the system is not functioning properly.

EMERGENCY REPORTING TELEPHONE SERVICE

ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Continued)

C. CONDITIONS (Continued)

7. The Telephone Company's liability for any loss or damage arising from errors, interruptions, defects, failures, or malfunctions of this service or any part thereof whether caused by the negligence of the Telephone Company or otherwise shall not exceed an amount equivalent to the pro rata charges for the service affected during the period of time that the service was fully or partially inoperative.
8. Each customer also agrees to release, indemnify and hold harmless the Telephone Company from any and all loss, claims, demands, suits, or other action, or any liability whatsoever, whether suffered, made instituted or asserted by the customer or by any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage, or destruction of any property, whether owned by the customer or others.
9. The customer also agrees to release, indemnify, and hold harmless the Telephone Company for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion or use of E911 service features and the equipment associated therewith, or by any services furnished by the Telephone Company in connection therewith, including, but not limited to, the identification of the telephone number, address, or name associated with the telephone used by the party or parties accessing E911 service hereunder, and which arise out of the negligence or other wrongful act of the Telephone Company, the customer, its user, agencies, or municipalities, or the employees or agents of any one of them.
10. Because the Telephone Company serving boundaries and political subdivision boundaries may not coincide, it is the obligation of the customer to make arrangements to handle all E911 calls that originate from telephones served by Central Offices in the local service area whether or not the calling telephone is situated on property within the geographical boundaries of the customer's public safety jurisdiction.

EMERGENCY REPORTING TELEPHONE SERVICE

ENHANCED UNIVERSAL EMERGENCY NUMBER SERVICE (E911) (Continued)

C. CONDITIONS (Continued)

- 11. Application for E911 Service must be executed in writing by each customer. If application for service is made by an agent, the Telephone Company must be provided in writing with satisfactory proof of appointment of the agent by the customer. At least one local law enforcement agency must be included among the participating agencies in any E911 offering.
- 12. The customer is required to furnish the Telephone Company its agreement to the following terms and conditions.
  - a. That all E911 calls will be answered on a 24-hour day, seven-day week basis.
  - b. That the customer has responsibility for dispatching the appropriate emergency service vehicles within the E911 service area, or will undertake to transfer all E911 calls received to the governmental agency with responsibility for dispatching such services, to the extent that such services are reasonably available.
  - c. That the customer will develop an appropriate method for responding to calls for non-participating agencies which may be directed to the E911 PSAP by calling parties.
  - d. That the customer will provide CPE with a capacity adequate to handle the number of incoming E911 lines recommended to be installed by the Telephone Company. It is the customer's responsibility to ensure their CPE is compatible with the service(s) provided by the Telephone Company.
- 13. When the Selective Routing feature is provided, the customer is responsible for identifying primary and secondary PSAP locations as well as the unique combinations of police, fire, and ambulance or any other appropriate agencies responsible for providing emergency service in the E911 serving area. An Emergency Service Number (ESN) will be provided for each unique combination by the Telephone Company. The customer will associate these ESN's with street address ranges or other mutually agreed upon routing criteria in the E911 serving area. These ESN's will be carried in the Data Management System (DMS) to permit routing of E911 calls to the primary and secondary PSAP's responsible for handling of calls from each telephone in the E911 serving area. The following terms define the customer's responsibility in providing this information:

13. (Continued)

- a. Initial and subsequent ESN assignments by street name, address range and area or other mutually agreed upon routing criteria shall be furnished by the customer to the Telephone Company prior to the effective date of service.
- b. After establishment of service, it is the customer's responsibility to continue to verify the accuracy of the routing information contained in the master address file and to advise the Telephone Company of any changes in street names, establishment of new streets, changes in address numbers used on existing streets, closing and abandonment of streets, changes in police, fire, ambulance, or other appropriate agencies' jurisdiction over any address, annexations, and other changes in municipal and county boundaries, incorporation of new cities or any other matter that will affect the routing of E911 calls to the proper PSAP.
- c. The Telephone Company will provide to the customer on request a complete written copy of the master address file to permit the customer to verify accuracy of the police, fire, and ambulance PSAP routing designations.
- d. Changes, deletions, and additions which the customer desires to have made in the master address file should be submitted on an "as occurred" basis.
- e. The Telephone Company will furnish a written copy to the customer for verification showing each change, deletion, and addition to the master address file.

  - c. The N11 subscriber assumes all financial responsibility for all costs involved in providing announcement or recorded program services including but not limited to, the recorder-announcement equipment producing the recording, advertising and promotional expenses.
  - d. The N11 subscriber assumes all financial responsibility, according to other specific rates and charges under catalog, for all facilities required to connect the recorder-announcement equipment located on the subscriber's premises.
15. The Company may take all legal and practical steps to disassociate it from N11 subscribers whose business and/or public conduct (whether demonstrated or proposed) generate unacceptable levels of complaints by end users.
16. The Company is not liable for any losses or damages of any kind resulting from the unavailability of its equipment, facilities or for any act, omission, or failure of performance by the Company, its employees or agents, in connection with this tariff. The Company will not be responsible for calls that cannot be completed as a result of repair or maintenance difficulties on Company facilities and equipment or on equipment owned or leased by the subscriber.
17. Calls placed to the N11 code will be routed to the point-to number based upon the central office switch and/or the Number Plan Area (NPA) of the calling party. Routing based upon NPA and NXX, ten-digit telephone number or ZIP Codes can be provided where technically feasible.
